# SAFETY DATA SHEET

### 1. Identification

| Product number<br>Product identifier<br>Company information | 100000240<br><b>15 OZ VANDALISM 1431 LB 12PK</b><br>SELECT SPECIALTY PRODUCTS<br>1575 AVON STREET EXTENSION #104 |
|---|--|
|   | CHARLOTTESVILLE, VA 22902-7227 United States   |
| Company phone   | General Assistance 434-296-3937  |
| Emergency telephone US                                      | 1-866-836-8855   |
| Emergency telephone outside<br>US                           | 1-952-852-4646   |
| Version #   | 01   |
| Recommended use   | CLEANER  |
| Recommended restrictions                                    | None known.  |

2. Hazard(s) identification

| Physical hazards      | Flammable aerosols                                | Category 1                  |
|-----------------------|---|-----------------------------|
| Health hazards        | Skin corrosion/irritation                         |                             |
|                       | Serious eye damage/eye irritation                 | Category 2                  |
|                       | Reproductive toxicity                             | Category 2                  |
|                       | Specific target organ toxicity, single exposure   | Category 3 narcotic effects |
|                       | Specific target organ toxicity, repeated exposure | Category 2                  |
|                       | Aspiration hazard                                 | Category 1                  |
| Environmental hazards | Not classified.                                   |                             |
| OSHA defined hazards  | Not classified.                                   |                             |
| Label elements        |   |                             |

| Danger  |
|---|
| Extremely flammable aerosol. May be fatal if swallowed and enters airways. Causes skin irritation. Causes serious eye irritation. May cause drowsiness or dizziness. Suspected of damaging fertility or the unborn child. May cause damage to organs through prolonged or repeated exposure.  |
|   |
| Obtain special instructions before use. Do not handle until all safety precautions have been read<br>and understood. Keep away from heat/sparks/open flames/hot surfaces No smoking. Do not<br>spray on an open flame or other ignition source. Pressurized container: Do not pierce or burn,<br>even after use. Do not breathe gas. Wash thoroughly after handling. Use only outdoors or in a<br>well-ventilated area. Wear protective gloves/protective clothing/eye protection/face protection.  |
| If swallowed: Immediately call a poison center/doctor. If swallowed: Rinse mouth. Do NOT induce vomiting. If on skin: Wash with plenty of water. If inhaled: Remove person to fresh air and keep comfortable for breathing. If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If exposed or concerned: Get medical advice/attention. Call a poison center/doctor if you feel unwell. Specific treatment (see this label). Do NOT induce vomiting. If skin irritation occurs: Get medical advice/attention. If eye irritation persists: Get medical advice/attention. Take off contaminated clothing and wash before reuse. Collect spillage. |
| Store in a well-ventilated place. Keep container tightly closed. Store locked up. Protect from<br>sunlight. Do not expose to temperatures exceeding 50°C/122°F.   |
| Dispose of contents/container in accordance with local/regional/national/international regulations.   |
|   |

### 3. Composition/information on ingredients

### **Mixtures**

| Chemical name                            | Common name and synonyms | CAS number | %        |
|--|--------------------------|------------|----------|
| Toluene                                  |                          | 108-88-3   | 20 - 40  |
| 2-Butoxyethanol                          |                          | 111-76-2   | 2.5 - 10 |
| Acetone                                  |                          | 67-64-1    | 2.5 - 10 |
| Butane                                   |                          | 106-97-8   | 2.5 - 10 |
| Diethylene Glycol Monobutyl Ether        |                          | 112-34-5   | 2.5 - 10 |
| Propane                                  |                          | 74-98-6    | 2.5 - 10 |
| 9-Octadecenoic Acid                      |                          | 112-80-1   | 1 - 2.5  |
| Sodium Hydroxide                         |                          | 1310-73-2  | 0.1 - 1  |
| Other components below reportable levels |                          |            | 20 - 40  |

\*Designates that a specific chemical identity and/or percentage of composition has been withheld as a trade secret.

### 4. First-aid measures

| Remove victim to fresh air and keep at rest in a position comfortable for breathing. Call a POISON CENTER or doctor/physician if you feel unwell.   |
|---|
| Wash off with soap and water. Get medical attention if irritation develops and persists.  |
| Rinse with water. Get medical attention if irritation develops and persists.  |
| Rinse mouth. Get medical attention if symptoms occur.   |
| May cause drowsiness and dizziness. Headache. Nausea, vomiting. Irritation of nose and throat. Aspiration may cause pulmonary edema and pneumonitis. Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Skin irritation. May cause redness and pain. Prolonged exposure may cause chronic effects. |
| Provide general supportive measures and treat symptomatically. Keep victim under observation. Symptoms may be delayed.  |
| IF exposed or concerned: Get medical advice/attention. If you feel unwell, seek medical advice (show the label where possible). Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves. Show this safety data sheet to the doctor in attendance.   |
|   |

## 5. Fire-fighting measures

| Suitable extinguishing media                                     | Powder. Foam. Carbon dioxide (CO2).  |
|--|--|
| Unsuitable extinguishing media                                   | Do not use water jet as an extinguisher, as this will spread the fire.   |
| Specific hazards arising from the chemical                       | Contents under pressure. Pressurized container may explode when exposed to heat or flame.  |
| Special protective equipment<br>and precautions for firefighters | Firefighters must use standard protective equipment including flame retardant coat, helmet with face shield, gloves, rubber boots, and in enclosed spaces, SCBA.   |
| Fire-fighting<br>equipment/instructions                          | Move containers from fire area if you can do so without risk. Containers should be cooled with water to prevent vapor pressure build up. For massive fire in cargo area, use unmanned hose holder or monitor nozzles, if possible. If not, withdraw and let fire burn out. |
| Specific methods   | Use standard firefighting procedures and consider the hazards of other involved materials. Move containers from fire area if you can do so without risk. In the event of fire and/or explosion do not breathe fumes.   |
| General fire hazards   | Extremely flammable aerosol.   |

### 6. Accidental release measures

| 0. Accidental release mea   | 30105   |
|---|---|
| Personal precautions,<br>protective equipment and<br>emergency procedures | Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Keep out of low areas. Wear appropriate protective equipment and clothing during clean-up. Do not breathe gas. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ventilate closed spaces before entering them. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS.  |
| Methods and materials for containment and cleaning up                     | Refer to attached safety data sheets and/or instructions for use. Eliminate all ignition sources (no smoking, flares, sparks, or flames in immediate area). Keep combustibles (wood, paper, oil, etc.) away from spilled material. Stop leak if you can do so without risk. Move the cylinder to a safe and open area if the leak is irreparable. Isolate area until gas has dispersed. Prevent entry into waterways, sewer, basements or confined areas. For waste disposal, see section 13 of the SDS.  |
| Environmental precautions   | Avoid release to the environment. Inform appropriate managerial or supervisory personnel of all<br>environmental releases. Prevent further leakage or spillage if safe to do so. Avoid discharge into<br>drains, water courses or onto the ground.  |
| 7. Handling and storage   |   |
| Precautions for safe handling   | Obtain special instructions before use. Do not handle until all safety precautions have been read<br>and understood. Pressurized container: Do not pierce or burn, even after use. Do not use if spray<br>button is missing or defective. Do not spray on a naked flame or any other incandescent material.<br>Do not smoke while using or until sprayed surface is thoroughly dry. Do not cut, weld, solder, drill,<br>grind, or expose containers to heat, flame, sparks, or other sources of ignition. All equipment used<br>when handling the product must be grounded. Do not re-use empty containers. Do not breathe<br>gas. Do not get in eyes, on skin, or on clothing. Avoid prolonged exposure. Use only in<br>well-ventilated areas. Should be handled in closed systems, if possible. Pregnant or breastfeeding<br>women must not handle this product. Wear appropriate personal protective equipment. Wash<br>hands thoroughly after handling. Avoid release to the environment. Observe good industrial<br>hygiene practices. |
| Conditions for safe storage,  | Level 2 Aerosol.  |
| including any incompatibilities   | Store locked up. Pressurized container. Protect from sunlight and do not expose to temperatures exceeding 50°C/122 °F. Do not puncture, incinerate or crush. Do not handle or store near an open flame, heat or other sources of ignition. This material can accumulate static charge which may cause spark and become an ignition source. Refrigeration recommended. Store away from incompatible materials (see Section 10 of the SDS). Level 2 Aerosol.  |

### 8. Exposure controls/personal protection

#### **Occupational exposure limits**

#### US. OSHA Table Z-1 Limits for Air Contaminants (29 CFR 1910.1000)

| Components   | Туре    | Value      |                               |  |
|--|---------|------------|-------------------------------|--|
| 2-Butoxyethanol (CAS<br>111-76-2)                      | PEL     | 240 mg/m3  |                               |  |
|  |         | 50 ppm     |                               |  |
| Acetone (CAS 67-64-1)                                  | PEL     | 2400 mg/m3 |                               |  |
|  |         | 1000 ppm   |                               |  |
| Propane (CAS 74-98-6)                                  | PEL     | 1800 mg/m3 |                               |  |
|  |         | 1000 ppm   |                               |  |
| Sodium Hydroxide (CAS<br>1310-73-2)                    | PEL     | 2 mg/m3    |                               |  |
| US. OSHA Table Z-2 (29 CFR 1910                        | 0.1000) |            |                               |  |

\* - For sampling details, please see the source document.

### **Exposure guidelines**

Skin protection Other

| US - California OELs: Skin       | designation  |                                   |
|----------------------------------|--|-----------------------------------|
| 2-Butoxyethanol (CAS 111-76-2)   |  | Can be absorbed through the skin. |
| Toluene (CAS 108-88-3)           |  | Can be absorbed through the skin. |
| US - Minnesota Haz Subs: \$      | Skin designation applies   |                                   |
| 2-Butoxyethanol (CAS 1           | 11-76-2)   | Skin designation applies.         |
| Toluene (CAS 108-88-3)           |  | Skin designation applies.         |
| US - Tennesse OELs: Skin         | designation  |                                   |
| 2-Butoxyethanol (CAS 1           | 11-76-2)   | Can be absorbed through the skin. |
| US NIOSH Pocket Guide to         | Chemical Hazards: Skin desig   | Ination                           |
| 2-Butoxyethanol (CAS 111-76-2)   |  | Can be absorbed through the skin. |
| US. OSHA Table Z-1 Limits        | for Air Contaminants (29 CFR   | 1910.1000)                        |
| 2-Butoxyethanol (CAS 1           | Butoxyethanol (CAS 111-76-2) Can be absorbed through the skin.   |                                   |
| Appropriate engineering controls | Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. Eye wash facilities and emergency shower must be available when handling this product. |                                   |
| Individual protection measures   | , such as personal protective  | equipment                         |
| Eye/face protection              | Wear safety glasses with side shields (or goggles).  |                                   |
| Hand protection                  | Wear appropriate chemical re   | sistant gloves.                   |

Wear appropriate chemical resistant clothing. Use of an impervious apron is recommended.

| Skin protection                   |   |
|-----------------------------------|---|
| Respiratory protection            | If permissible levels are exceeded use NIOSH mechanical filter / organic vapor cartridge or an<br>air-supplied respirator.  |
| Thermal hazards                   | Wear appropriate thermal protective clothing, when necessary.   |
| General hygiene<br>considerations | When using, do not eat, drink or smoke. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. |

## 9. Physical and chemical properties

Appearance

| Physical state                             | Gas.  |  |
|--|---|--|
| Form                                       | Aerosol.  |  |
| Color                                      | Tan.  |  |
| Odor                                       | Solvent.  |  |
| Odor threshold                             | Not available.  |  |
| рН   | 12.5 - 13.4 estimated   |  |
| Melting point/freezing point               | Not available.  |  |

| Specific gravity                           | 0.765 estimated   |  |
| 10. Stability and reactivity               |   |  |
| Reactivity                                 | Reacts violently with strong acids. This product may react with oxidizing agents.                                   |  |
| Chemical stability                         | Material is stable under normal conditions.   |  |
| Possibility of hazardous reactions         | Hazardous polymerization does not occur.  |  |
| Conditions to avoid                        | Avoid temperatures exceeding the flash point. Do not mix with other chemicals. Contact with incompatible materials. |  |
| Incompatible materials                     | Acids. Strong oxidizing agents. Oxidizing agents. Nitrates. Fluorine. Chlorine.                                     |  |
| Hazardous decomposition<br>products        | No hazardous decomposition products are known.  |  |

### 11. Toxicological information

### Information on likely routes of exposure

| Ingestion  | Droplets of the product aspirated into the lungs through ingestion or vomiting may cause a serious chemical pneumonia.   |  |
|--|--|--|
| Inhalation   | May cause damage to organs through prolonged or repeated exposure by inhalation. May cause drowsiness and dizziness. Headache. Nausea, vomiting. Narcotic effects. Prolonged inhalation may be harmful.  |  |
| Skin contact   | Causes skin irritation.  |  |
|  | 2-Butoxy ethanol may be absorbed through the skin in toxic amounts if contact is repeated and prolonged. These effects have not been observed in humans.   |  |
| Eye contact  | Causes serious eye irritation.   |  |
| Symptoms related to the physical, chemical and toxicological characteristics | May cause drowsiness and dizziness. Headache. Nausea, vomiting. Irritation of nose and throat.<br>Aspiration may cause pulmonary edema and pneumonitis. Severe eye irritation. Symptoms may<br>include stinging, tearing, redness, swelling, and blurred vision. Skin irritation. May cause redness<br>and pain. |  |

### Information on toxicological effects

| Acute toxicity             | May be fatal if swallowed and ente | May be fatal if swallowed and enters airways. Narcotic effects. |  |

| Other adverse effects                     | No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.   |  |
| 13. Disposal consideration                | IS  |  |
| Disposal instructions                     | Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Contents under pressure. Do not puncture, incinerate or crush. Do not allow this material to drain into sewers/water supplies. Do not contaminate ponds, waterways or ditches with chemical or used container. Dispose of contents/container in accordance with local/regional/national/international regulations. |  |
| Local disposal regulations                | Dispose in accordance with all applicable regulations.  |  |
| Hazardous waste code                      | The waste code should be assigned in discussion between the user, the producer and the waste disposal company.  |  |
| US RCRA Hazardous Waste U List: Reference |   |  |
| Acetone (CAS 67-64-1)                     | U002  |  |
| Toluene (CAS 108-88-3)                    | U220  |  |
| Waste from residues / unused              | Dispose of in accordance with local regulations. Empty containers or liners may retain some   |  |

| Waste from residues / unused<br>products | Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).                                 |
|--|--|
| Contaminated packaging                   | Empty containers should be taken to an approved waste handling site for recycling or disposal.<br>Since emptied containers may retain product residue, follow label warnings even after container is<br>emptied. Do not re-use empty containers. |

### 14. Transport information

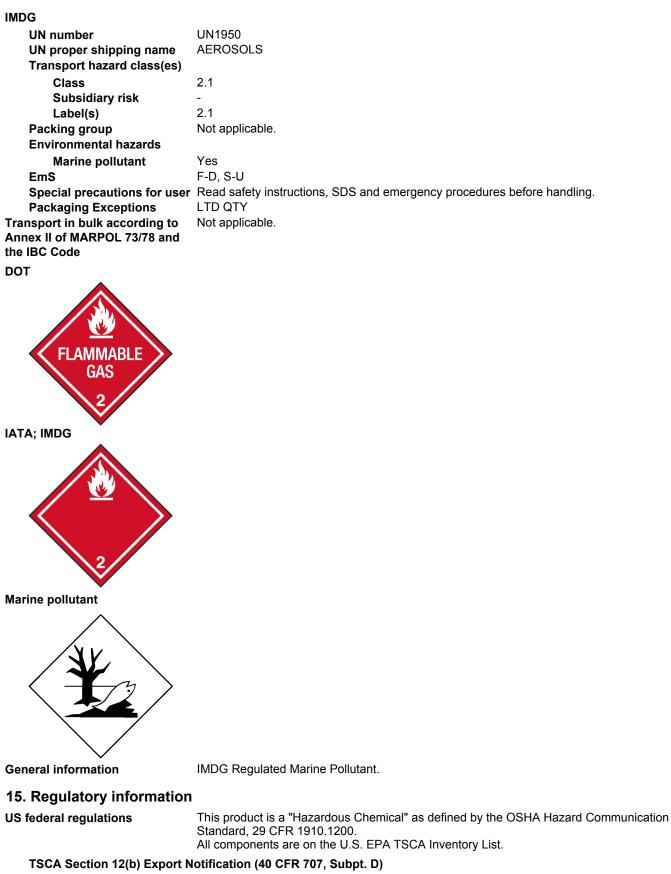

#### DOT

| UN number                    | UN1950  |
|------------------------------|---|
| UN proper shipping name      | Aerosols, flammable   |
| Transport hazard class(es)   |   |
| Class                        | 2.1   |
| Subsidiary risk              | -   |
| Label(s)                     | None  |
| Packing group                | Not applicable.   |
| Special precautions for user | Read safety instructions, SDS and emergency procedures before handling. |
| Special provisions           | N82   |
| Packaging exceptions         | 306   |
| Packaging non bulk           | None  |
| Packaging bulk               | None  |

This product meets the exception requirements of section 173.306 as a limited quantity and may be shipped as a limited quantity. Until 12/31/2020, the "Consumer Commodity - ORM-D" marking may still be used in place of the new limited quantity diamond mark for packages of UN 1950 Aerosols. Limited quantities require the limited quantity diamond mark on cartons after 12/31/20 and may be used now in place of the "Consumer Commodity ORM-D" marking and both may be displayed concurrently.
